

GRUPO
MYCASA

BACKGROUND

Grupo MYCASA does EPC projects, equipment and piping erection, fabrication for process equipment and O&M in Industrial Projects and Facilities. The company throughout the years have achieved integrating a solid baseline of human and technical resources, ownership of heavy equipment and tooling that supports delivering the highest quality products and services in a Total Quality environment.

Our highest commitment is to provide quality, service, efficiency and cost relationships to our clients, as they're success becomes our success, fostering integration in project execution and long term partnerships with our clients.

Our goal has been to integrate the most advanced technical solutions into the design process, to optimize design and construction of industrial, environmental and power facilities.

VALUES

- Total Quality
- Customer Focus
- Implementation of lessons learned
- Commitment
- Integrity

QUALITY CERTIFICATES

Our group fosters a Total Quality culture in all our projects, being this one of our principal guiding values.

Our quality policy is complemented by our quality systems certification, that is imbued into our processes.

We also maintain a continuous improvement policy through the application of our management systems, leading to innovation in each project.

We've develop several projects through the Americas.

The accumulated experience throughout 55 years have led us to positon itself as a reference Company in international.

Thanks to the contracts and agreements made with local, exporting and multinational companies, we have presence both in developing countries as well as in high tech countries.

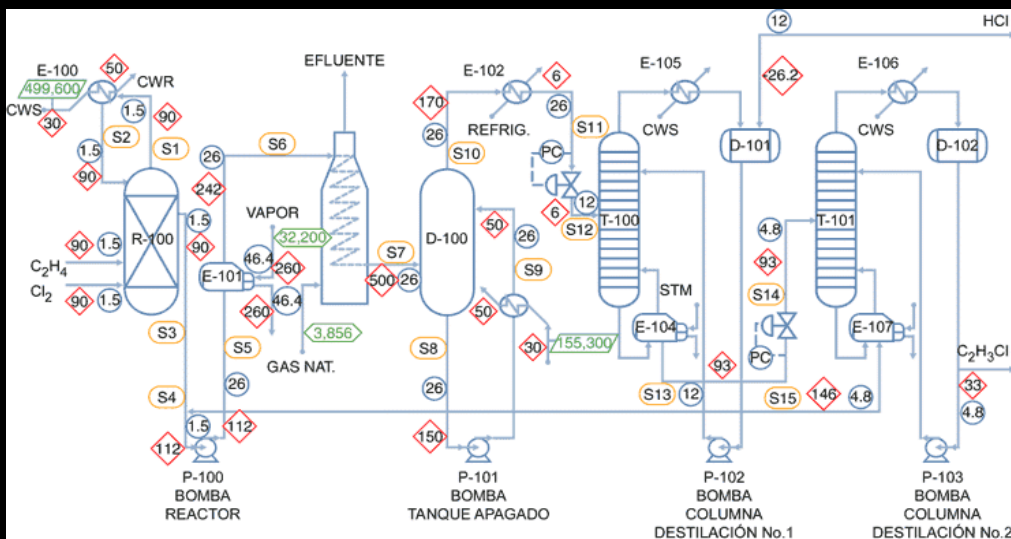

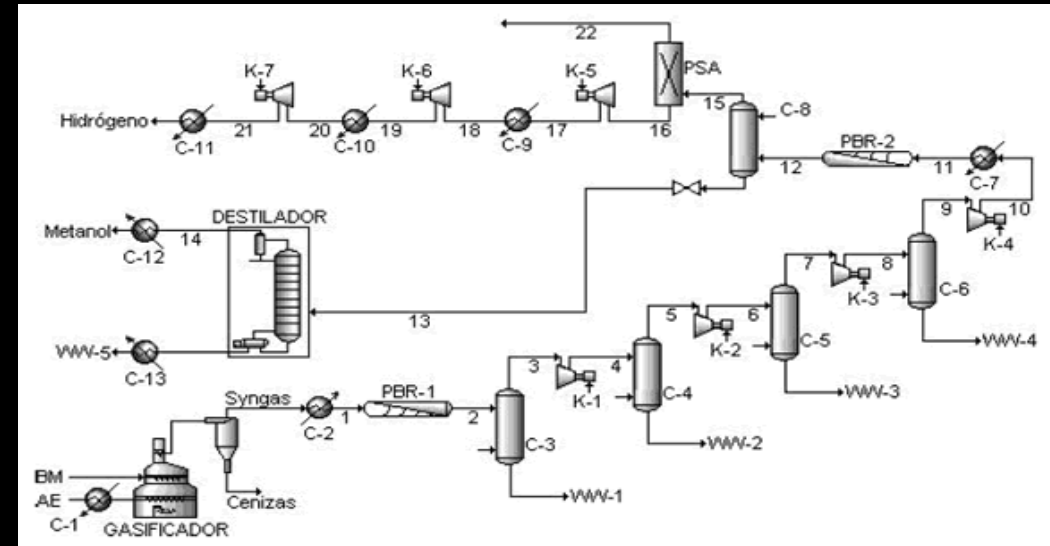

SERVICES

ENGINEERING

Concept Engineering

- Establishment of process requirements
- Definition of basic process
- Value Engineering
- Early Cost Estimation

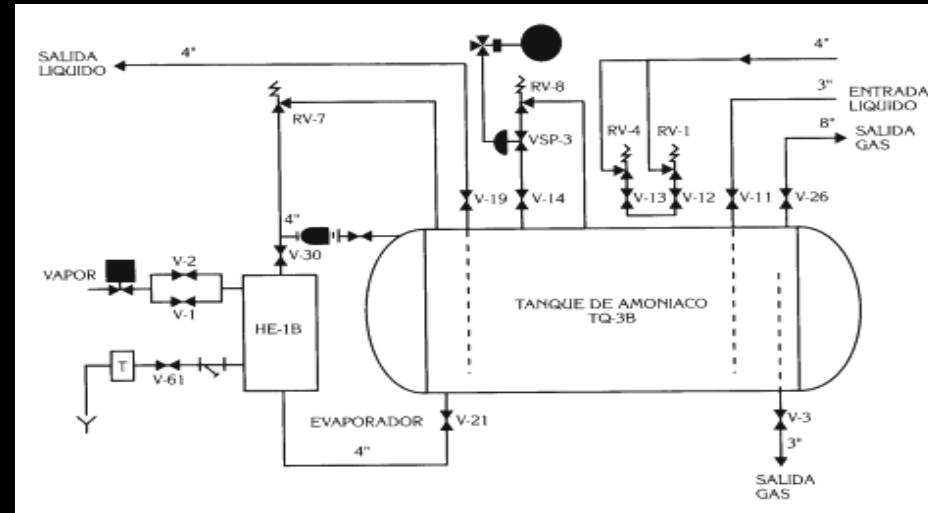

Basic Engineering

- Process Flow Diagram development (PFD)
- Early Process Equipment list
- Calculation of thermal and power equipment requirements.
- Procurement Process
- Instrument and equipment listing updating General Arrangement drawing definition
- Stage II of Budgeting

ENGINEERING

Detail Engineering

- P&ID Diagrams
- Tank and vessel sizing
- Sizing and listing of piping, valves, instruments and signals
- Listing of process equipment
- One line diagrams and drawings
- Piping Stress calculation
- Material Takeoffs
- Detailed Budgeting

Mechanical Engineering

- Structural Analysis
- 3D Modeling
- Fabrication drawings

Ingeniería Eléctrica

- Low, Medium and High Tension details
- Substations and Swithyards.
- Power and Electrical Systems studies.
- Grounding networks.
- lighting design

GRUPO MYCASA

ENGINEERING

Instruments and Control Engineering

- Detailed P&IDs
- Instrument Data Sheets
- Instrument hook up schemes
- 3D studies and modeling
- Interconnection schemes
- Plant Control System Design
- Electrical Panels
